A Maze of Death is a 1970 science fiction novel by American writer Philip K. Dick. Like many of Dick's novels, it portrays what appears to be a drab and harsh off-world human colony and explores the difference between reality and perception. It is, however, one of his few to examine the human death instinct and capacity for murder and is one of his darkest novels.

A Maze of Death is a strange mixture of science fiction, mystery, and theology. Fourteen people are assigned to colonize an uninhabited planet, Delmak-O. One by one, they meet mysterious deaths. It is unclear whether the malevolent agent is a military conspiracy, evil aliens, or each other. The solution to this puzzle is, however, in the end less important than the mystery of Delmak-O itself.

A Maze of Death is the kind of book that seems initially appealing but doesn't stand up to subsequent readings.

Realistic characters (all human this time), genuine suspense, a strange and oddly familiar view of religion and a really well handled twist at the end - for those reasons A Maze of Death is one of my favorite Philip K. Dick novels.
