The cross-linguistic differences documented in studies of relative clause attachment offer an invaluable opportunity to examine a particular aspect of bilingual sentence processing: Do bilinguals process their two languages as if they were monolingual speakers of each?

[Bilingual sentence processing - Oxford Handbooks](#)

Studies in bilingual sentence processing have focused on phenomena related to how semantic or syntactic representations are built. This article reviews data consistent with the view of interdependence between the two languages of the bilingual, using evidence from the literature on bilingual sentence processing. Studies of both semantic processing and syntactic processing show that bilinguals
