Ken's view: Code to Zero is an amnesia story. I got the idea from a book about a CIA research project, top secret of course, in which the agency tried in real life to find drugs that would make people forget things.

It's sad to say that 'Code to Zero' was Follett's first real flop and disappointment! The book is filled with unnecessary cheesy hyperboles, and a plot that tries to be creative but it goes nowhere! Sadly, the idea of writing a book about USA vs U.S.S.R cold war, in the likes of a character that suffers 'amnesia' becomes a little too daunting, even to the master Follett.
