Stenmark makes a strong and attractive case for a morally
adequate approach to religion and science that recognizes
differences while granting greater equality.

Religion, Science, and Democracy: A Disputational ...
This book uses Hannah Arendt's work to understand the
paradoxical role of religion and science in public life and
to develop a model for the science and religion discourse
which does not focus on truth claims, but rather promotes
public discourse and judgment. It advocates the position of
the

Religion, Science, and Democracy: A Disputational ...
Despite the increasing popularity of "religion and science"
as an academic discourse, the intersection of science and
religion remains a front line in an ongoing "culture war."
The reasons for this lie in an approach to discourse that
closely resembles the model of discourse promoted by
John Rawls.
