Special Economic Zones (SEZs), introduced in February 2006, are one of the stiffest challenges for India's economic policy reforms. The emotionally charged debate on SEZs has often produced inflexible positions on either side. The unusually strong public reaction has also forced policymakers to revisit several aspects of the policy in recent months. As the first book on India's SEZs, this volume examines different popular perceptions - both good and bad - surrounding these zones.

India s Special Economic Zones Examine Key Information

Special economic zones (SEZs) in India are certain localities which offer tax and other incentives to their resident businesses. Up until 2000, India did not have SEZs, and instead had a number of export processing zones (EPZs), which, although similar in structure to the modern SEZ, failed to attract many firms to India.

Is the Path to Higher Exports in India Paved with Export

India's first export zone started in 1964 and six more central government zones were operational by the mid 1990s. However, these zones explain only a fraction of export growth rates in India. Statistics show that during the pre-reform years, these zones contributed to less than five per cent of total exports and even now contribute to less than fifteen per cent of total exports from India
